

I want you to know that I am truly disgusted with what is going on in Madison. This is not Democracy and they know it. They are disregarding the majority of the people in Wisconsin by passing these laws in a lame duck session.

These laws will be challenged by the courts and will be tied up for years. But more importantly, they will become a wedge that will continue to divide the State on Party lines instead of trying to find common ground and moving forward to deal with important issues that need bipartisan support.

I was a Republican for most of my 70 years but these guys are crossing the line.

Please reconsider your position and represent the People and Save our Democracy.

Thank you

La Grange
