Subject: Political sabotage of the authority and power of the Governor-Elect and the Attorney General-Elect of Wisconsin.

I have been a registered Republican since 1969. I am appalled at the despicable action of the Wisconsin legislature today and the proposed action to limit the power and authority of the duly elected officials. And I promise to actively campaign in the future for any opponent of yours in future elections. Shame on you! This is the type of chicanery Mayor Richard J. Daley might have pulled and one of my reasons for leaving Chicago, for what I considered to be a decent state. Again, shame on you! Your actions today disgust me.
