Subject: Lame Duck Session Legislation

It is with great difficulty that I write this e-mail. As a voter in your District 11 I am offended and angered by the very obvious partisan power grab being considered in today's proposed legislation. The difficulty I am experiencing is in controlling my temper over this ridiculous adult version of if I don't get my way, I'll take my ball and leave.

The changes being considered will needlessly cost taxpayers of Wisconsin millions of dollars in legal fees both from fighting the constitutionality of parts of the legislation and in the outside legal fees paid at the discretion of the Senate and Assembly.

None of the legislation being considered has anything to do with benefiting the residents of Wisconsin who elected you to represent them. If you support this legislation, I will, for the first time in my life become politically active beyond just casting my vote in every election. I will volunteer, donate, organize, and work my tail off to get you and any other Republicans voted out of office.

Sincerely,

Lake Geneva, WI
