**Summary:** Extraordinary session

**Description:** Good Morning Representative Brooks,

Thank you for taking the time to receive this information.

As a long-time support of Republicans, voting and vocally supporting candidates both in state and nationally, I struggle today with what is occurring in Madison.

The "lame duck" content which seems to be fast-tracked for a vote is troubling on several accounts. The reported cost associated with adjusting the Primary is NOT fiscally responsible to say the least.

Let's be honest here, this appears to be nothing more than a temper tantrum at this point, with Governor Elect Evers coming into office in January. Am I thrilled he won? Heck no. Did he win? Yes.

Let's have some class, support the Governor Elect, and let's learn to work 'across the aisle' more. As someone who is active locally in politics, and will have a future on a bigger stage, I hope to God, I can be a voice of all the people....not just those in 'my party'.

Take a chance and be the leader we elected, Vote No, and encourage your peers to do the same. We are better than this, and you all know it.

Thank you!
