Subject: Vote NO on Lame Duck

I am a registered Republican and live in Fontana, Wisconsin. Thank you for your service. I have never written to any senator or congress person but am writing to you today to say that I do NOT approve of the underhanded 'lame duck' efforts the republicans are taking in order to minimize the power of Governor elect Evers, and other democrats elected by the people of the state.

This is not how democracy is suppose to work. As a republican, this aggresses behavior, I believe will only come back to haunt the republicans in the 2020 election. My friends of both parties are concerned that a vote to take away power from the governor elect and other elected democrats will only serve to fuel the partisan fire. I look to you to rise to the occasion, be a true leader and show that you are truly willing and hopefully able to work in a nonpartisan way with the new governor and other elected democrats.

Aggressive partisan politics must come to a stop! I think of our Republican and American hero George H Bush as he modeled partisan politics so beautifully. If only a few republicans would learn from him. Republicans look like sore losers and this kind of legislation only feels like a power grab. How disappointed I am in this lame duck legislation.

Please vote NO on all Lame Duck efforts to minimize the governor elect and other elected democrats ability to governor .

Thank you again for your service and commitment to all the people of Wisconsin.

Fontana, WI
