Subject: Lame Duck session

As a life-long Republican, I am appalled at the actions of the Republicans in the State Legislature! If this is the way the legislators act, and who say they represent me, I want no more part of being a Republican,
Be assured I will vote Democratic from now on if this is the way the Republican party acts when they do not win an election. I have tried to teach my children to be fair and treat people with dignity, but these actions by the Republican Party is a sad commentary on the morals I have lived by all my life.
