Upcoming Lame-Duck Legislation

Message

Dear

As a resident of Hales Corners, I wanted to reach out in hopes of sharing my voice regarding the proposed lame-duck legislation that is being brought to the State legislature.

Despite having voted Republican for much of my life, I can only say that this is quite embarrassing for our state's image and this legislation seems only to be motivated by political reasons.

I would be much more proud of our state, and the chosen few who have been given the honor to govern on our behalf, if we would put our efforts into working together with our new governor-elect.

While I do not agree with all of Tony Ever's positions, I feel he deserves the same amount of opportunity to succeed as if Scott Walker had won re-election.

As our recently-deceased 41st President stated in his note to then President-elect Clinton, Tony Ever's "success is now our [state's] success."
