**Summary:** Opposed to extraordinary session legislation

**Description:**

As a fiscal conservative that wants to vote for leaders with integrity, I'm disgusted with the leadership I'm seeing. We need legislators that are truly interested in fostering a representative democracy that strives for fairness. As your constituent, I strongly encourage you to fight the type of leadership we are seeing from people like Scott Fitzgerald. We are better than this! At least we can be if we can get people like you to stand up to the talk-radio style governance we continue to glorify.

Vote no to the lame duck policies currently being advanced limiting the Governor's power and have the fortitude to re-address this issue once the new Governor and legislators are in place.

Also, when back in session:

- Figure out laws that actually encourage voting.
- Reform our campaign finance laws.
- Set a precedent for fair gerrymandering.
- And keep fighting for small business

Get us back to a representative democracy that believes the rules should be fair so we can focus on legislation that is in the overall best interest of the voters. Pretending that is what you are doing during a lame duck session is irresponsible and enough to lose my vote.

Thanks,
