

WI SENATE DISTRICT 21

ASSEMBLY DISTRICTS 61, 62, & 63

Between Oct., 2015 and Nov., 2019, We the Irrelevant queried legislators in this district via open record requests. The requests asked for records of all contacts from citizens on GOP-promulgated legislation under consideration. Those contacts included emails, letters, and phone calls. Records were tallied according to how many contacts opposed the proposed legislation and how many supported it. The one exception to this arrangement is Gov. Evers' special session called to debate two gun-control bills in Nov., 2019. Consistency required that contacts in support of the bills be counted with the opposition to all of the other bills.

Below is a summary of all of the SD 21 contacts.

Contacts opposing (inc. support for gun control):	15,230
Contacts supporting:	567

NOTE: Some opposition to the proposed water management legislation in April 2016 came from interest groups that represented many thousands of people. That explains the unusually high number of contacts to those legislators queried during that time.
